The screenshot displays the GoAnywhere Insiders community dashboard. At the top, there's a green header with the GoAnywhere logo and the text "GoAnywhere Insiders". Below the header, there are tabs for "Available", "Waiting", "Later", and "Completed". The main content area is divided into two columns. The left column features six challenge cards: "Annual Easter Egg Hunt" (16 Challenges), "Product News" (6 Challenges), "The Fun Zone" (14 Challenges), "Getting Started" (13 Challenges), "Onboarding Resources" (6 Challenges), and "Upcoming Events" (5 Challenges). Each card has a green button at the bottom. The right column shows a "Suggest a Challenge" button and an "Activity" section with a list of recent posts from community members, including John Burns, Marc-Andre Beland, Matthew Clark, Dean Voller, and Jeremy Bullis. The posts include their avatars, names, and snippets of their comments.

To sign up: Go to **insiders.goanywhere.com** and use the join code **GAINSIDERS**.

Today's Presenter

Dan Freeman
Senior Solutions Consultant
HelpSystems

- ▶ Production version 6.1.2 released on May 14, 2019
- ▶ 32 new features, 9 enhancements, 17 updates, and 17 bug fixes
- ▶ 96 customer votes were delivered
- ▶ Major features include:
 - ▶ EDI X12 Data Translation
 - ▶ Granular Admin Permissions
 - ▶ GoAnywhere One-Time Passwords
 - ▶ Service Level Agreements
 - ▶ PeSIT Resource and Task
 - ▶ Database-driven values for Secure Forms
 - ▶ Online License

GoAnywhere MFT 6.1: Honorable Mentions

- ▶ Added a new tamper-evident logging feature to indicate if audit log records have been modified in the database.
- ▶ Added the ability to save and manage search filters for audit logs and other list pages.
- ▶ Created a new data mapping graphical interface for the Read and Write XML tasks in the Project Designer.
- ▶ Improved keyboard accessibility, contrast ratio, and more for 508 compliance.
- ▶ Upgraded numerous libraries (Jackson Databind/Core/Annotations, Jasper Reports, Netty, etc).
- ▶ Now offering 5 free user licenses of Secure Mail – just email sales if you want to add to your existing license.

GoAnywhere MFT 6.1: Honorable Mentions (Continued)

- ▶ Rebranded “GoDrive for Windows” app to “GoAnywhere Desktop Client for Windows”.
- ▶ Overhauled the user interface to be more modern and to match the look and feel of the Web Client.
- ▶ Added a new authentication process that launches the browser enabling SSO and better MFA.
- ▶ Still supports GoDrive.
- ▶ Added support for devices to work with the Web User's Secure Folders. Such as:
 - ▶ Upload, download, list, rename, and delete files and folders.
 - ▶ Drag-n-drop from Windows Explorer to the GoAnywhere Desktop Client to upload files and folders.
 - ▶ Drag-n-drop within the application to move files and folders.

- ▶ GoAnywhere MFT officially supports Docker
- ▶ Docker Installation instructions have been added to the GoAnywhere Install Guide on the Customer Portal
- ▶ A certified Docker image is available on Docker Hub

- ▶ What are they?
 - ▶ Out-of-the-box integrations with applications like Salesforce, SharePoint, Microsoft Dynamics 365, Box, and more
 - ▶ Allow you to integrate with popular Web Service APIs
- ▶ How do I find them?
 - ▶ Download from our online marketplace in the GoAnywhere administrator
 - ▶ OR build your own with our easy drag-n-drop designer

New Cloud Connectors in 2019

- ▶ Amazon Elastic Container Service (ECS)
- ▶ Amazon Simple Notification Service (SNS)
- ▶ Amazon Simple Queue Service (SQS)
- ▶ Automate Enterprise
- ▶ Azure Data Lake Storage
- ▶ Egnyte
- ▶ JAMS
- ▶ Microsoft Dynamics 365 Business Central
- ▶ Microsoft OneDrive
- ▶ ServiceNow
- ▶ Veeva CRM

“How do GoAnywhere customers use Cloud Connectors today?”

To move files in and out of different cloud technologies

To scan files for malicious content and replace with “good” files

Using GoAnywhere Secure Forms as front end to add/edit cloud services

Creating custom Connectors using designer features

Live Demo
