Today's Agenda

1. Introduction
2. What is the GDPR?
3. Preparing for the GDPR
4. Implications and Non-Compliance
5. What is MFT?
6. MFT and GDPR Compliance
7. The Benefits of Using MFT
8. Question & Answer

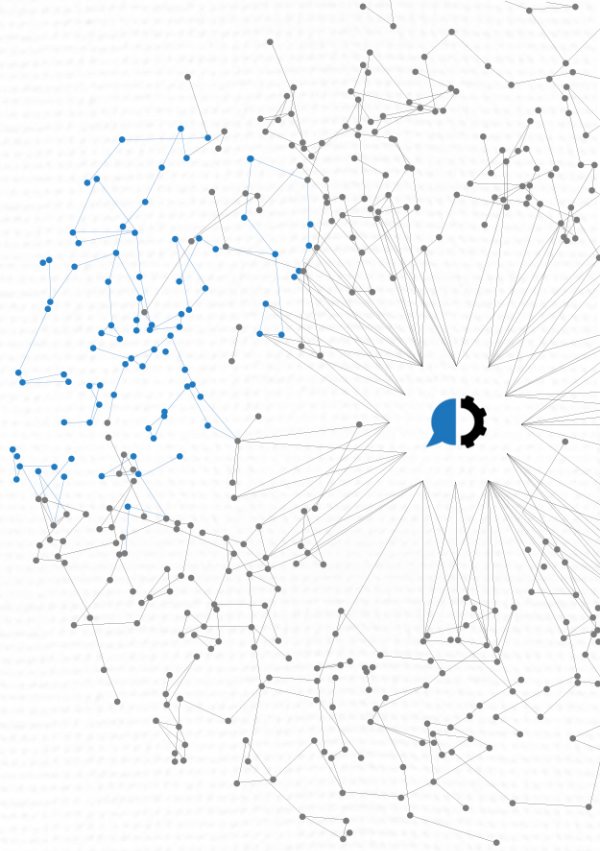

UP NEXT

General Data Protection Regulation

What it is, why it matters, and how to prepare for it

UP NEXT

- ▶ The new EU General Data Protection Regulation (GDPR) is effective **May 25, 2018**.
- ▶ This regulation succeeds the Data Protection Directive, a two-decade old directive.
- ▶ The GDPR strives to protect the processing and storing of EU citizens' personal data.
- ▶ With less than 3 months to go, organizations worldwide need to prepare for compliance or face **severe fines and penalties**.

What is the GDPR?

Purpose: To protect EU citizens' personal data and define how organizations process, store, and destroy data when it is no longer required.

- ▶ This includes transfers of your data between EU and non-EU locations.
- ▶ The GDPR governs what happens if access to personal data is breached.
- ▶ Organizations will suffer consequences (fines) following a data breach.

Who does the GDPR apply to?

- ▶ The GDPR applies to:
 - ▶ Any controller or processor established in the EU that processes personal data.
 - ▶ Any non-EU controller or processor offering goods and services to EU data subjects.
 - ▶ Any non-EU controller or processor monitoring the behavior of EU data subjects.

IF YOUR COMPANY DOES BUSINESS IN EU COUNTRIES, THIS APPLIES TO YOU!

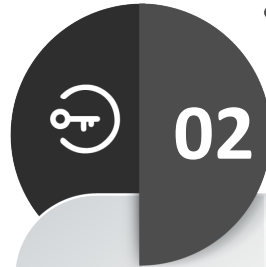

Preparing for the GDPR

Know the 8 Rights of GDPR

RIGHT TO BE INFORMED

Provide transparency within your business over how personal data is used, stored, and protected

RIGHT TO ACCESS

Provide access to your data, how it is used, and any supplemental data that may be used alongside your data

RIGHT TO RECTIFICATION

Rectify any personal data if it is incorrect or incomplete

RIGHT TO ERASURE

Remove personal data where there is no compelling reason to store it

Preparing for the GDPR

Know the 8 Rights of GDPR

05

RIGHT TO RESTRICTION OF PROCESSING

Enable data to be stored but not processed

06

RIGHT TO DATA PORTABILITY

Provide copies of stored information/data to the data subject

07

RIGHT TO OBJECT TO PROCESSING

Comply with the request to stop processing or not process data

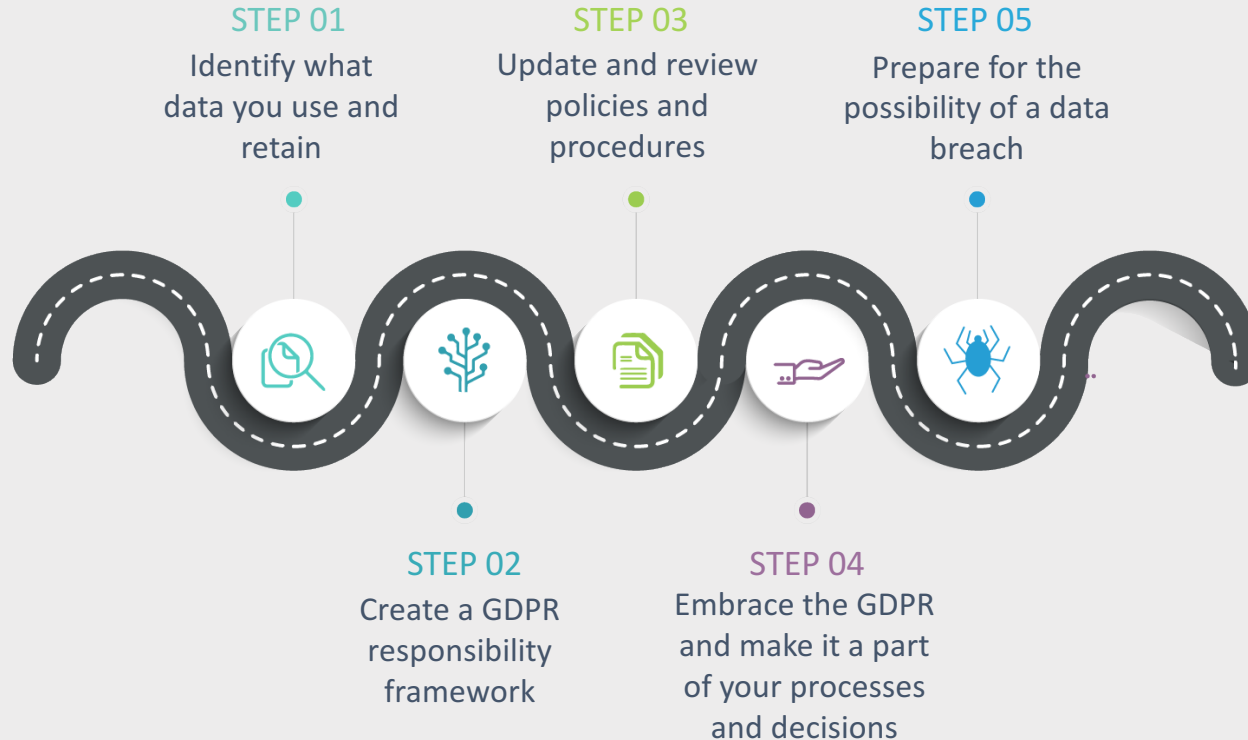

08

RIGHT TO NOT BE SUBJECT TO AUTOMATED DECISION MAKING

Comply with the request to not have automated decisions made about a data subject's personal data

Preparing for the GDPR

Steps for Your Compliance Journey

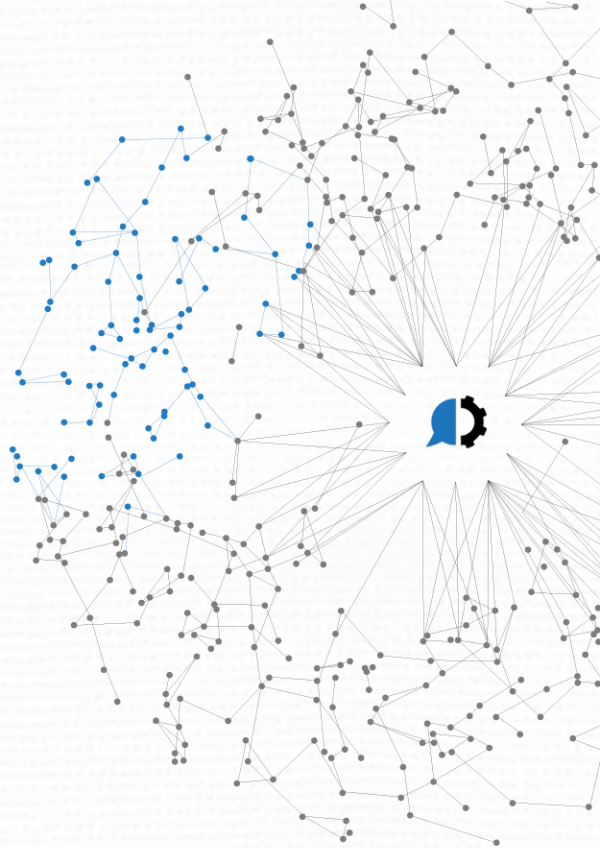

Penalties (Fines)

- ▶ Up to €10M (or 2% of total worldwide turnover)
- ▶ Up to €20M (or 4% of total worldwide turnover)

Managed File Transfer

GoAnywhere MFT and the GDPR

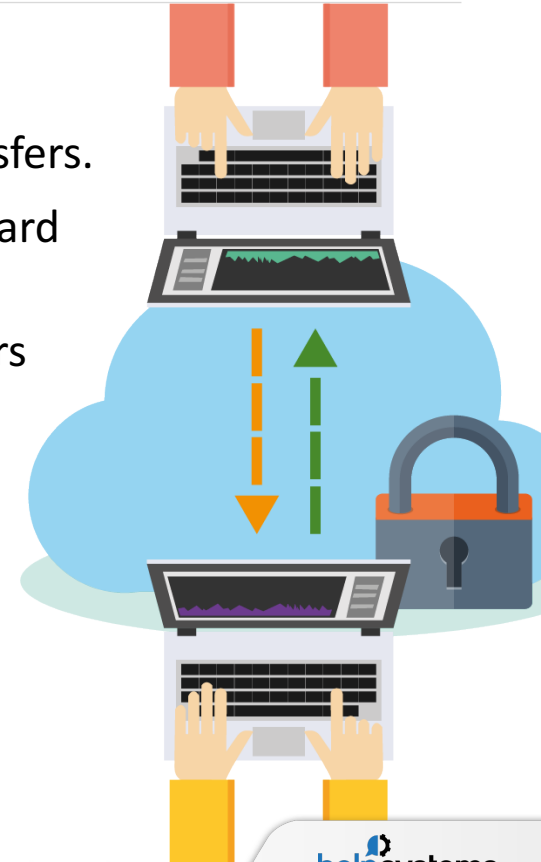

UP NEXT

What is Managed File Transfer?

- ▶ MFT is a type of secure file transfer software.
- ▶ It encompasses all aspects of inbound and outbound file transfers.
- ▶ Files are encrypted in motion and at rest using industry-standard network protocols.
- ▶ “Managed” refers to how the solution automates and transfers data across your organization, network, systems, and other environments with ease.

Basic MFT Overview

Access Anywhere

Web Browser,
Command Line, API...

- Workflow Automation
- Encryption
- Compression
- Data Translation
- Scheduler
- Folder Monitors
- Inbound and Outbound
- Ad Hoc and Batch
- File Sync and Sharing
- Custom Secure Forms
- Secure Email
- Partner Management

Alerts

Audit Logs & Reports

 **GO ANYWHERE**[®]
Managed File Transfer

Platforms	File Services	Cloud	Databases	Applications	MFT Agents
					
Windows, Linux, IBM i, AIX, Solaris, UNIX, Mac	SFTP, SCP, FTPS, FTP, AS2, HTTP/S, SMB, Email, WebDAV	Amazon, Azure, Web Services	SQL Server, MySQL, DB2, Oracle, PostgreSQL, Sybase, Informix...	Scripts, Programs, Commands, MQ, SNMP, ICAP	Remote Workflows and File Transfers

GoAnywhere MFT will secure, automate, and audit your file transfers to assist in meeting several key GDPR principles, specifically:

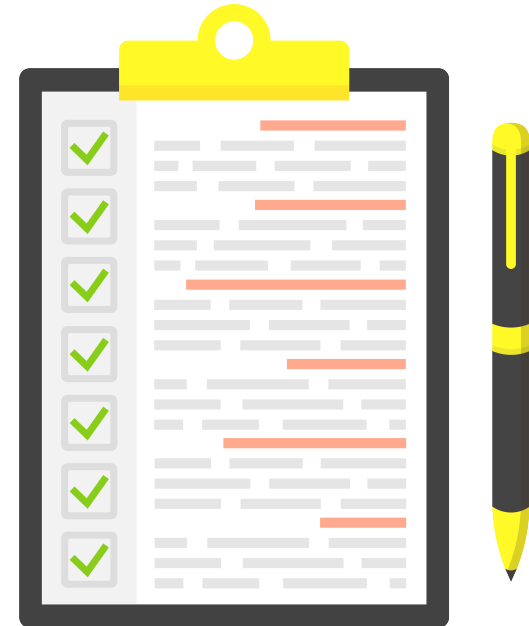

- ▶ Securing the transmission of personal data through encryption
- ▶ Performing integrity checks of successful file transfers to protect accuracy
- ▶ Demonstrating GDPR compliance with audit trails and reporting for every transfer

GoAnywhere MFT can help organizations address the following requirements:

- ▶ **Articles 5.1(e), 5.2**
 - ▶ You must process personal data in a way that ensures appropriate security.
- ▶ **Articles 7, 8**
 - ▶ Individuals must give consent to have their personal data collected/used. Consent must be separate from other written agreements.
- ▶ **Articles 15, 20**
 - ▶ EU citizens may request a copy of data/request to transfer data from company to company.
- ▶ **Article 25**
 - ▶ Organizations must be able to provide a reasonable level of data protection and privacy.

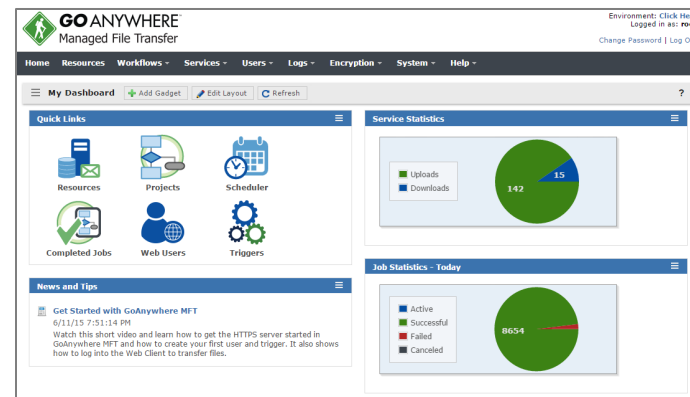

GoAnywhere MFT can help organizations address the following requirements:

- ▶ **Article 30**
 - ▶ Maintain records of processing activities, including type of data processed and purposes for why it's used.
- ▶ **Article 32**
 - ▶ Controller/processor shall implement appropriate technical/organizational measures to ensure a level of security appropriate to the risk.
- ▶ **Articles 39.1(b), 39.2**
 - ▶ A Data Protection Officer shall be able to monitor compliance with GDPR.

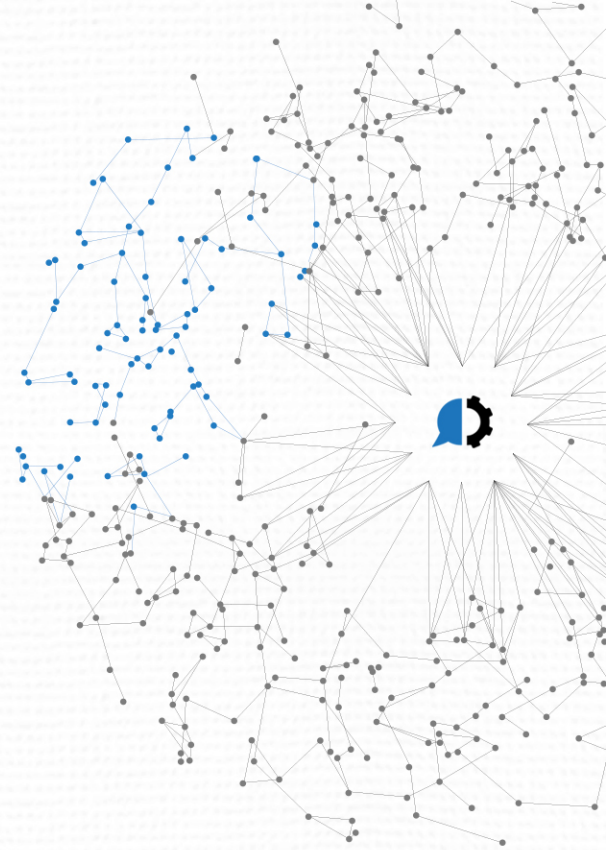

The Benefits of Using MFT

- ▶ Implementing an MFT solution like GoAnywhere MFT can help you achieve GDPR compliance:
 - ▶ **Encryption technologies** like PGP, SSH/SSL, and AES 256-bit encrypted folders helps you remain in control of data.
 - ▶ Use **Secure Forms** to collect consent forms. Submission history is logged for auditing and reports.
 - ▶ **User roles** allow the administrator to limit who can view or process information in your organization.
 - ▶ **Comprehensive audit logs** track all file transfer and administrator activity. You can schedule and report on these.
 - ▶ **Encryption key management**, among other encryption technologies, will help you implement a solid security strategy.
 - ▶ Use **Admin Roles** to give a Data Protection Officer access to whatever they need to monitor or review.
