- ▶ Production version 6.5.1 released on June 9th, 2020
- ▶ 9 new features, 16 enhancements, 6 updates, and 18 fixes
- ▶ 64 Customer Votes added in 6.5
- ▶ Major features include:
  - ▶ **Secure Forms updates** – Take advantage of more powerful, flexible Secure Forms capabilities.
    - ▶ Dynamic component blocks
    - ▶ Web user and expression implementation
    - ▶ Enhanced, more granular secure form response task navigation
    - ▶ Powerful front end to workflow engine
  - ▶ **Updated Secure Mail Outlook plug-in** – Send email and large files securely with our modernized Secure Mail Outlook plug-in.
    - ▶ UI Updates
    - ▶ TO/CC/BCC support
    - ▶ SMS password support

## ▶ Major features (continued):

- ▶ **SMS add-on** – With this you can use any SMS provider to send text messages as part of automated workflows.
  - ▶ A way to work with custom SMS providers
  - ▶ It works with GoAnywhere's one-time password feature and functionality
  - ▶ This SMS add-on utilizes our cloud connector technology
- ▶ **PeSIT Server implementation** – You can use this to meet European banking standards for secure file transfers.
- ▶ **SFTP security enhancements** – GoAnywhere now offers more granular SFTP security right out of the box.
  - ▶ Granular configuration for host key/public key algorithms

## ▶ Major features (continued):

- ▶ **MFTaaS** – You can now deploy GoAnywhere as a SaaS solution, thanks to our new MFTaaS offering.
  - ▶ Cloud formation stack adjustments for re-usability
  - ▶ Gateway Integration
  - ▶ Removal of BETA

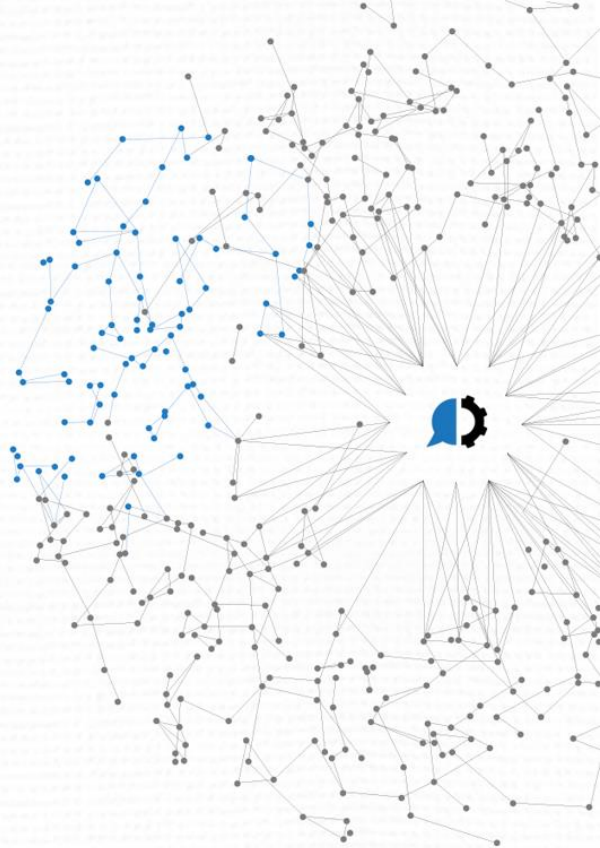

# GoAnywhere MFT 6.5: Honorable Mentions

- ▶ GoAnywhere is now Drummond Certified for AS3
- ▶ GoAnywhere anticipates earning Common Criteria in 2020 within the next few months. This has been delayed due to COVID-19.
- ▶ Added the ability to run a Docker container as a non-root user
- ▶ Updated SFTP, FTP host versions.
- ▶ Troubleshooting Guide
  - ▶ Living document that will continue to receive updates as we encounter complex and common scenario's.
  - ▶ First step when troubleshooting protocols/functionality/error messages

## Live Demo

UP NEXT

# Customers: How to Get Started with 6.5

- **Upgrade to GoAnywhere 6.5**

Perform a web update within the GoAnywhere administrator by going to **Help > Check for Updates**.

- **Upgrade Outlook Plugin to version 3.0**

Secure Email outlook plugin is available at <httpsmy.goanywhere.com>. Find in the same location as GoAnywhere MFT downloads.

Install right over the top of existing installation for updates.

- **Contact Sales to Purchase Online License**

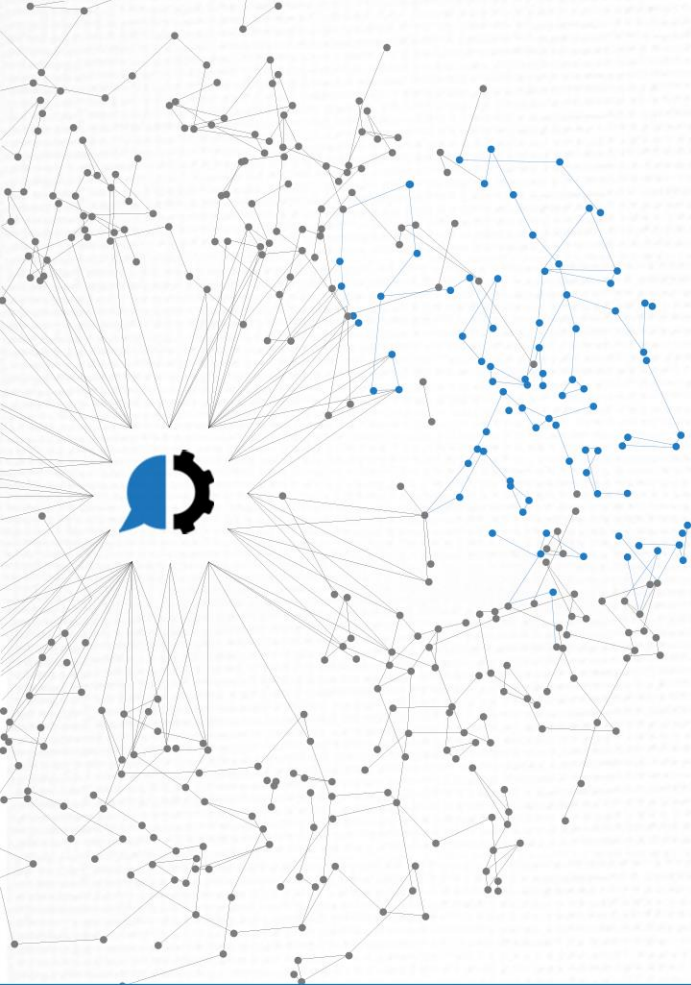

# Thank you for joining us!

- ▶ Questions about new GoAnywhere features? We're happy to help.
